Community Interest
Company

**SECTION A: COMMUNITY INTEREST STATEMENT –
beneficiaries**

1. We/I, the undersigned, declare that the company will carry on its activities for the benefit of the community, or a section of the community.

The company's activities will provide benefit to ...

Members from the community who are interested in exploring, learning and innovating with a variety of techniques and materials. The vision is to become the “go to” place for individuals who want to make, innovate or socialise with like minded “makers”.

COMPANY NAME

Swindon Makerspace C.I.C.

SECTION B: Community Interest Statement – Activities & Related Benefit

Please indicate how it is proposed that the company's activities will benefit the community, or a section of the community. Please provide as much detail as possible to enable the CIC Regulator to make an informed decision about whether your proposed company is eligible to become a community interest company. It would be useful if you were to explain how you think your company will be different from a commercial company providing similar services or products for individual or personal gain.

Activities (Tell us here what the company is being set up to do)	How will the activity benefit the community? (The community will benefit by...)
Establish a sustainable, open maker facility - accessible 24x7 to all members and bookable by other clubs/societies	Swindon currently has no multi-purpose maker facility with access to a range of tools (e.g. digital fabrication). We will expand our existing organisation and establish a dedicated space with 24x7 access, enabling us to expand our range of equipment. We will complement similar organisations of this type that now exist in many major cities (e.g. Oxford, Bristol).
Facilitate open and free sharing of knowledge, skills and inspiration between members, and non-members alike	This will continue to build awareness, interest and involvement in maker culture and complement the rich history of Swindon as a centre for engineering and innovation.
Organisers of regular community events with a S.T.E.M. focus (e.g. workshops, open days, demonstrations)	We will enable the wider community to experience and utilise a variety of fabrication technologies (e.g. 3D printing, laser cutting). We will foster innovation, small-scale manufacturing and provide a facility that can be leveraged by start-up businesses.
If the company makes any surplus it will be used for.. We hope to generate a surplus from trading. We intend for this to be reinvested in the business and/or sponsor community activities with a similar purpose (e.g. maker conferences, exhibitions, outreach activities).	

(Please continue on separate sheet if necessary.)

This form will be placed on the public record. Any information relevant to the application that you do not wish to appear on the public record, should be described in a separate letter addressed to the CIC Regulator and delivered to the Registrar of Companies with the other documents.
